

国际硬皮病临床与研究协作网第六届会议  
**The 6<sup>th</sup> Symposium of International Network of  
 Scleroderma Clinical Care and Research (InSCAR)**

- 一、会议时间：2016年3月6日（周日）  
**Date: March 6 2016 (Sunday)**
- 二、会议地点：深圳市海上田园酒店  
**Venue: Hai Shang Tian Yuan Hotel, Shenzhen**
- 三、会议议程  
**Schedule**

3月4日-6日 <b>Mar. 4-6, 2016</b>	注册报到 <b>Registration</b>
3月6日 <b>Mar. 6, 2016</b>	开幕式 主持：邹和建 王庆文 <b>Opening Ceremony MC: Hejian ZOU, Qingwen WANG</b>
8:30-8:45	欢迎词： 深圳市医师协会会长 杨卓欣 北京大学深圳医院副院长 曾晖 <b>Welcoming Remarks: Zhuoxin YANG, Chairman of Shenzhen Medical Doctor Association Hui ZENG, Vice President of Peking University Shenzhen Hospital</b>
	InSCAR主席致辞：Maureen MAYES 教授 <b>Address by President of InSCAR: Prof. Maureen MAYES</b>
	InSCAR 副主席介绍 InSCAR：周晓冬教授 <b>Introduction of InSCAR by vice president of InSCAR: Prof. Xiaodong ZHOU</b>
<b>Session 1</b>	主持：John REVEILLE 张晓 <b>MC: John REVEILLE Xiao ZHANG</b>
8:45-9:10	Maureen MAYES: 硬皮病在中国及其他人群中的临床表型和自身抗体的差异 <b>Maureen MAYES: Differences in SSc clinical phenotype and autoantibody profiles in Chinese and other-ancestry patients</b>
9:10-9:30	Xiaodong ZHOU: 利用成纤维细胞系统研究硬皮病相关遗传与环境因素 <b>Xiaodong ZHOU: Integrative studies of scleroderma-associated genetic and environmental factors with fibroblasts</b>
9:30-10:15	Virginia STEEN: 硬皮病患者的肺部特征 <b>Virginia STEEN: The lung in systemic sclerosis</b>
10:15-10:30	茶歇 <b>Break</b>

<b>Session 2</b>	主持: Xiaodong ZHOU 李娟 <b>MC: Xiaodong ZHOU Juan LI</b>
10:30-11:15	Oliver DISTLER: 抗硬皮病纤维化治疗潜在靶标的转化研究 <b>Oliver DISTLER: Translational research in SSc-identifying potential targets for anti-fibrotic therapies</b>
11:15-12:00	Christopher DENTON: 硬皮病中 TGF- $\beta$ 的转化研究 <b>Christopher DENTON: Translational studies of TGF-<math>\beta</math> in systemic sclerosis</b>
12:00- 13:30	午餐 <b>Lunch</b>
<b>Session 3 Special Talks</b>	主持: Maureen MAYES 王久存 <b>MC: Maureen MAYES, Jiucun WANG</b>
13:30-14:00	John REVEILLE: 强直性脊柱炎临床及遗传研究的最新进展 <b>John REVEILLE: Updated AS clinics and genetics</b>
14:00-14:15	王庆文: 类风湿性关节炎中 C 反应蛋白诱导炎症的作用及其分子机制 <b>Qingwen WANG: The inducing inflammation role of C-reactive protein and it's molecular mechanism in rheumatoid arthritis</b>
<b>Session 4</b>	主持: Christopher DENTON 吴文育 <b>MC: Christopher DENTON, Wenyu WU</b>
14:15- 14:30	王久存: 中国硬皮病患者 anti-U1RNP 抗体的临床意义 <b>Jiucun WANG: Clinical significance of anti-U1RNP antibodies in Chinese SSc patients</b>
14:30-14:45	Minghua WU: 硬皮病中 I 型干扰素的特征及硬皮病小鼠中的生物学通路 <b>Minghua WU: Type I interferon signature in SSc and its biological pathways in animal models</b>
14:45-15:00	梁敏锐: 硬皮病动物模型研究对发病机制的新启示 <b>Minrui LIANG: SSc mouse model: new implication for pathogenesis</b>
15:00-15:15	孙晓虹: 全反式维甲酸通过上调硬皮病 CD4+ T 细胞的去甲基化诱导 CD4+CD+25FOXP3+调节性 T 细胞 <b>Xiaohong SUN: All-trans retinoic acid induces CD4+CD25+FOXP3+ Treg cells by increasing FOXP3 demethylation in SSc CD4+ T cells</b>
15:15-15:20	闭幕致辞: InSCAR 副主席 邹和建 <b>Closing remarks by vice President of InSCAR: Hejian ZOU</b>
15:30-17:30	患者会诊 <b>Clinical Consultation for scleroderma patients by InSCAR members</b>
18:00-20:00	晚餐 <b>Dinner</b>
